

Thank you for volunteering to coach this season!

There are **three steps** that you will need to take prior to the start of the season. These are US club soccer requirements!

- Step 1: Online "Safesport training"
- Step 2: Online "Sideline Safety course"
- Step 3: Back ground check

Step 1 SAFESPORT: Email this email address to request an auto reply email with a link and access code. It will also have instructions on how to take the course **safesport@usclubsoccer.org**

When you complete **ALL THREE MODULES** you will need to download and save the **safesport trained certificate**. You DO NOT need to save the certificates it gives you after each module, only the one you are issued at the completion of the entire course. This course is free and does not require a pre-paid code.

Step 2 SIDELINE SAFETY COURSE: The pre-paid code to take this course will be provided to you from our club.

Here is the link [\[usclubsoccer.sidelinesportsdoc.com/\]](http://usclubsoccer.sidelinesportsdoc.com/)

You need to also download and save your completion certificate from this course.

Step 3 BACKGROUND CHECK: Here is the link for the background check screening. [\[US Club Soccer Background Screening Application\]](#) The system will not let you fill out this application without uploading your completion certificates from both courses. Your one time use pre-paid code will be provided to you from our club.

Once you complete all three of these things and your background check has cleared you will receive an email notification from US club soccer letting you know your background check has cleared.
